

La Cumbre Mutual Water Rain Sensor Rebate Program

REBATE SUMMARY

A rebate of \$50 is available for the purchase and installation of a qualifying new rain sensor. Rebates are limited to one (1) rain sensor per qualified account for the lifetime of the account.

Rain sensors are small devices that turn off an automatic landscape irrigation system when it rains. It is mounted in an open outdoor area and connected to a traditional irrigation controller. During the rainy season, a rain sensor can reduce water bills while conserving water. By turning off sprinklers on days surrounding a heavy rain, customers may save an average of 500 gallons of water or more per day.

Rain sensors are available in both wireless and hard-wired versions. Both are usually compatible with most traditional irrigation controllers. Some older controllers can be adapted, if necessary. Information about selection of the best rain sensor for an existing irrigation system or installation of the device can be obtained from a local irrigation equipment company or hardware store specializing in smart irrigation. There are also several online videos demonstrating the installation of a rain sensor.

La Cumbre Mutual Water customers may be eligible for a rebate when purchasing and installing a qualifying new rain sensor.

REBATE PROCESS

1. Obtain and complete the application.
2. Install rain sensor and submit a completed application **AND** a copy of the itemized, dated sales receipt for the rain sensor within 90 days of purchase to:

La Cumbre Mutual Water Company
695 Via Tranquila
Santa Barbara, CA 93110
Or
office@lacumbrewater.com

3. A Water Conservation Program Representative will arrange an appointment to verify installation of the new rain sensor.
4. Once the Water Conservation Program verifies the eligibility of the rain sensor and approval is granted, the rebate will be processed and credited to your water bill.

RAIN SENSOR REBATE PROGRAM GUIDELINES AND CONDITIONS:

Qualifying Applicants

Customers who pay a water utility bill to La Cumbre Mutual Water Co.

Rebate Details

The rebate amount is \$50 for the purchase and installation of one (1) rain sensor per qualified account for the lifetime of the account.

The new rain sensor must be installed, and the rebate application must be submitted within 90 days of purchase date. The rain sensor must be purchased new, no used rain sensor will qualify for the rebate. A copy of the original itemized, dated sales receipt for the new rain sensor must be submitted with the rebate application. By applying, applicants agree to an inspection to verify the installation. Rebates will only be awarded after verification of proper installation and compliance with the requirements of this rebate. Rebate will be credited to your water bill.

Rebate Requirements

The rain sensor must be set to shut off the irrigation system after ¼" of rain or less has fallen. Rain sensors that cannot meet this setting will not qualify for this rebate. The rain sensor must be an addition to a fully operational landscape irrigation system that is in good repair and is currently installed without a rain sensor.

Important Notes

- Possession or submission of a rebate application does not guarantee a rebate approval.
- Rebates are processed on a first-come, first-served basis.
- Rebate amounts are subject to change without notification.
- If approved, the rebate will be credited to the billing account
- The Rain Sensor Rebate Program is subject to change or termination without notice
